

Scaynes Hill WI

May 2017

At our meeting in May we were entertained, and educated, by Jane from 'Madajazz'. She has travelled in Madagascar and told us about the country and how little the people there have to live on, yet how happy they all are. She then went on to explain how she imported bags and hats to sell in the UK. Jane told us how the bags were made from raffia and zebu leather and made by the villagers. She brought a fantastic array of styles and colours. We had great fun trying on the hats (and purchasing quite a few) and a number of ladies now have very stylish hand bags too! She has a warehouse in Five Ash Down and a website – so have a look!

Next month (14th June) is our 100th Birthday celebration – we have a sword swallower to entertain us and tea to share.
